Horizon House

Hooray For Our Horizon House Heroes!

We'd like to give a special thank you to our Direct Support Professionals at one of our Lindbergh Blvd homes. They have left us speechless. Out of the kindness of their hearts and with their primary care physicians' approval, staff members willingly went into isolation for 12 days with two men who came in contact with the virus. Both staff and the men came out of isolation safe, healthy and free of the virus. Thank you for your dedication to providing the best care and support to the individuals we serve!

Horizon House Goes Out into the Community

Our Homeless Outreach teams continue to go out daily to engage and support men and women struggling in our community. We thank you for your bravery and genuine compassion and for all that you do to build relationships that become the stepping stones towards life changing opportunities. You are our Horizon House Heroes on the front line and we are inspired by your incredible dedication. Thank

you to our Homeless Outreach Team!

Thank You Angela!

We would like to give a big shout out to Angela E., the House Manager, at Susquehanna Park. She was nominated by her team for going the extra mile to keep her colleagues and our participants safe and well during the COVID-19 pandemic. Thanks for all that you do for staff and the people we serve at Horizon House. You are amazing!

 Horizon House

Shore 3 Celebrates Memorial Day

Moments of normalcy are so appreciated! Shore 3 staff put together a nice Memorial Day BBQ for all of the participants living together in this supported housing unit while social distancing their seating, and wearing masks. In the past, they would go to the park and have a cookout and activities but this time the parking lot worked. The staff went above and beyond by finding a new way to keep their traditions going and made the day special for those we serve. Let's keep the summer safe and fun!

Select Horizon House Rehabilitation Services when shopping!

Horizon House serves adults, who live with disabilities throughout counties in Pennsylvania and Delaware. Some face multiple challenges, including serious and persistent mental illness, developmental and intellectual disabilities, and histories of substance abuse. Many have lived for years without homes--either on the streets or in shelters--and often struggle with the additional burden of coming to terms with traumatic encounters. Nearly all individuals served by Horizon House are economically disadvantaged.
